

# YC135S Amphibious excavator

Total Weight :	18600	kg
Standard bucket capacity:	0.52	$m^3$
rated power :	86	kW

- Excellent performance
- Low fuel consumption
- High efficiency
- Suitable for working conditions of swampland, fishpond, canal, river etc.

# **YC135S**

## **Amphibious excavator**

Freely go cross Mountains and rivers in rain or shine!

## 1 New electric control hydraulic pump

New generation renowned brand electric control hydraulic pump
Intelligent control to realize precise match of engine and hydraulic pump
Excellent operation efficiency

4

Reinforced Rotating structure Low noise High reliability

#### Optional equipment

Lengthening arm
Which can expand the scope of construction and apply to more working conditions.

YUCH

International famous brand control system
High coordination for composite movements
Easy assessing hydraulic valve block
High reliability

#### Bucket

Bucket capacity 0.52m3

Durable Reinforced material to prolong service life

## **YC135S**

YC135S is a brand new customized special excavator product developed by Yuchai heavy industry. It is widely adaptable to differenct working conditions. With outstanding excavating performance and moderate tonnage, it is suitable for river dredging, ditch cleaning and urban construction and rural reconstruction.

### **YUCHAI** Engine

- Carefully matched and created by the expert team, perfect power system
- Strong torque, sufficient reserves, low fuel consumption and fast response
- Bosch common rail system and integrated DCU post-processing control, stable and reliable.
- Yuchai's sixth generation gold power, which has won the gold award in the industry for many consecutive years.
- Global leading service system, convenient maintenance and low maintenance charge

#### **5** Comfortable driving experience

Optimal design air conditioning, the refrigeration capacity is increased by 20% and the air volume is increased by 53%.

Suspended two-way sliding seat, which can be adjusted freely, makes driving more comfortable.

The electrical harness adopts high standard connector central distribution box, with high integration, high reliability and convenient maintenance.

7-inch high-resolution color large screen, clearer and easier to identify

#### Tracks of Amphibious excavator

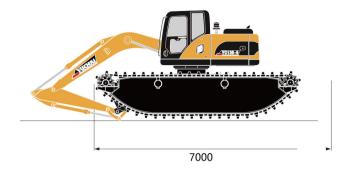

Simple installation and easy maintenance. Suitable for walking in swamps, fish ponds, lakes, canals, rivers and other similar working conditions.

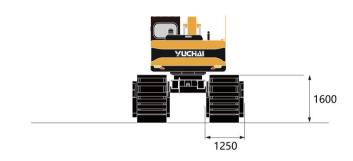

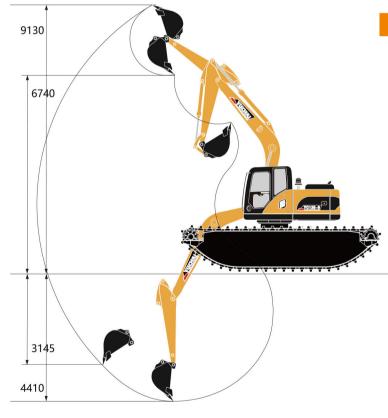

## **Main Applications**

#### **►** Technical specifications

#### **Basic parameter**

Machine weight 18600 kg
Engine power 86 kW
Standard bucket capacity 0.52 m³

#### **Dimensions**

Length of Boom4600 mmLength of Stick2250 mmLength of Pontoon7000 mmWidth of Pontoon1250 mmHeight of Pontoon1600 mmWidth of Chassis3700 mm

#### **Operating parameters**

Max. wading depth	1600	mm
Work efficiency	100	m³/h
Max. digging height	9130	mm
Max. dumping height	6740	mm
Max. digging depth	4410	mm
Max. Vertical digging depth	3145	mm
Max. digging radius	8065	mm
Max. digging radius on ground level	7720	mm
